

Dear [Customer],

Looking to get your flu shot?

[Retailer] is here to help.

You may know the importance of being vaccinated against the flu. However, there are other vaccine-preventable diseases you can help protect yourself against with in-pharmacy vaccination.

- **Tetanus, Diphtheria, Whooping Cough**
- **Pneumococcal**
- **Hepatitis A**
- **Hepatitis B**
- **Meningitis ACWY**
- **Meningitis B**
- **Shingles**

If you get your flu shot, ask our pharmacist what you can do to help protect against other vaccine-preventable diseases.

Come to [retailer address] and visit our pharmacy to learn which vaccines may be right for you.\*

\*Additional vaccines may be recommended for you other than those listed.  
Our pharmacists can help you understand which vaccines are recommended for you.
